DYNAMIC PRODUCT LISTING

The Dynamic Component for product listing page
fetching data from sanity and displaying on UI
through mapping each product using unique ID
using map method.

DYNAMIC DATA EXPLANATION

This Website once a static before but after integration of sanity data in project all data is fetched and displayed in this platform are coming from sanity and now its a fully functional dynamic marketplace.

```
1 import { type SchemaTypeDefinition } from 'sanity'
2 import products from './products'
3
4 export const schema: { types: SchemaTypeDefinition[] } = {
5   types: [products],
6 }
7
```

sanity > schemaTypes > TS index.ts > schema
